

Phillip Gallegos, MD, an Anesthesiologist with Thrive Performance and Regenerative Medicine Clinic

Get to know Anesthesiologist Dr. Phillip Gallegos, who serves patients in Sugar Land, Texas.

New York City, New York Mar 14, 2022 ([Issuewire.com](https://www.issuewire.com)) - An excellent anesthesiologist, Dr. Gallegos is the Co-Founder of Thrive Performance and Regenerative Medicine Clinic in Sugar Land,

Texas.

Thrive Performance & Regenerative Medicine is an integrative, performance, precision, and regenerative medicine company providing services & products encouraging total health for motivated humans. Integrating ancient inner wisdom and practices with modern science and technology to unlock your peak health. We offer services to improve executive, athletic, and sexual performance, decrease stroke and heart attack risk, improve vascular health, balance hormones, improve nutrition, and we also offer regenerative therapies such as stem cells and platelet-rich plasma when indicated.

Back in 2007, Dr. Gallegos earned his medical degree from the American University of the Caribbean School of Medicine. He completed his residency in anesthesiology at the University of Texas Health Science Center at Houston in 2011.

With an unwavering commitment to his specialty, the doctor is board-certified in anesthesiology and echocardiography by the American Board of Anesthesiology (ABA). As the certifying body for anesthesiologists since 1938, the ABA is committed to partnering with physicians to advance the lifelong learning and exceptional patient care. Its mission is to advance the highest standards of the practice of anesthesiology.

Anesthesiology is the medical specialty concerned with the total perioperative care of patients before, during, and after surgery. It encompasses anesthesia, intensive care medicine, critical emergency medicine, and pain medicine. Anesthesiologists have the primary responsibility of monitoring the patient's vital signs during surgery. In addition to basic measurements such as pulse, blood pressure, and temperature, they measure the patient's respiration.
