

Syook Now Available in the Microsoft Azure Marketplace

Microsoft Azure customers worldwide now gain access to Syook InSite to take advantage of the scalability, reliability and agility of Azure to drive application development and shape business strategies.

Bengaluru, Karnataka Mar 2, 2022 ([IssueWire.com](https://www.issuewire.com)) - Syook, an industrial IOT startup that provides operations excellence to enterprise customers, today announced the availability of their no-code operations management platform InSite in the Microsoft [Azure Marketplace](#), online store providing applications and services for use on Azure. Syook's customers can now take advantage of the productive and trusted Azure cloud platform, with streamlined deployment and management across geographies and sectors.

Syook InSite gives businesses complete visibility into their operations, from the movement of people and monitoring assets to complete business process automation. This ensures safety, productivity, and compliance management across various sectors including Oil and Gas, Mining, Manufacturing and Auto. The operational improvements provided by the InSite platform helps enterprises make a successful transition to Industry 4.0.

Aman Agarwal, Co-Founder, and CTO at Syook said, "We are very excited to work together with Microsoft Azure for seamless deployment to our customers around the world. We look forward to leveraging Azure's global availability and seamless scaling."

Jake Zborowski, General Manager, Microsoft Azure Platform at Microsoft Corp. said, "We're pleased to welcome Syook to the Microsoft Azure Marketplace, which gives our partners great exposure to cloud customers around the globe. Azure Marketplace offers world-class quality experiences from global trusted partners with solutions tested to work seamlessly with Azure."

The Azure Marketplace is an online market for buying and selling cloud solutions certified to run on Azure. The Azure Marketplace helps connect companies seeking innovative, cloud-based solutions with partners who have developed solutions that are ready to use.

Based out of Bengaluru in India, Syook is an Industrial IOT startup funded by ONGC and IPV. The founding team has decades of experience in handling complex operations across the globe. Syook partners with customers with them in their digital transformation journey and empowers them with avant-garde knowledge-based solutions for scalable, seamless workplace operations using their proprietary no-code platform InSite.
