

Tenda launches U10 - AC650 Wireless USB adapter, dual band with 6 dBi antenna in India

U10 is Auto-install, Plug And Play wireless USB adapter

New Delhi, Delhi Mar 2, 2022 (Issuewire.com) - Tenda launches U10 - AC650 Wireless USB adapter, dual-band with 6 dBi antenna in India

~ U10 is Auto-install, Plug And Play wireless USB adapter ~

Tenda, the global leader in wireless router and networking devices launches its all-new U10 which adopts 11AC dual-band and supports MU-MIMO. The wireless speed is up to 433Mbps (5GHz) + 200Mbps (2.4GHz), bringing a smoother gaming experience for users.

U10 is an 11ac dual-band wireless USB adapter that is automatically installed. The wireless speed of 5GHz can reach 433Mbps, and the speed of 2.4GHz can reach 200Mbps. Equipped with an external 6dBi antenna and support MU-MIMO, U10 enables improve data transmission efficiency and provides

smoother streaming. Easily get a portable WiFi hotspot when plug U10 into a networked computer. Fully compatible with Windows 10 / 8.1 / 8/7 / XP to meet the wireless Internet access. .

The newly launched Tenda AC19 is stocked with **28nm 1GHz CPU** equipped with **500MHz co-processor, dual-core design** that helps in faster processing speed and in optimized operation. Also, the router has an in-built signal amplifier used both on 2.4GHz and 5GHz bands of AC19 to enhance the penetration capability and expand the Wi-Fi coverage. It is also the first router from Tenda to use 6*6 dBi external antennas and four data streams of 5Ghz band to provide a better 5GHz Wi-Fi signal.

The Tenda AC 650 U10 has a 6 dBi antenna, similar in design to those found on the Tenda AC19 WiFi router. The extender also integrates an LED that illuminates when connected. It is being very subtle. The antenna can also be positioned in several directions.

Tenda U10: Internet to every computer

The Tenda U10 adapter is designed especially for desktop computers that do not have their own WiFi card. It simply plugs & play USB adapter, the drivers are installed in the Windows 10 environment automatically.

In the same way, the adapter can also be used for laptops that do not have their own WiFi card or have a non-functional one. The Tenda U10 supports 802.11a / ac / b / g / n standards, offering data transfer speeds of up to 650 Mbps. The 2.4 and 5 GHz bands are supported.

Speaking on the launch, **John Dong, Director, Tenda India** commented *“We understand unique market requirements and with launch of U10 we intent to bridge product gap in Indian market. U10 is very unique product for SOHO market.”*

Key Features and Benefits:

- Interface - USB 2.0
- 6 dBi antenna
- Wireless frequency - Dual Band: 2.4Ghz and 5Ghz
- Wireless standards-IEEE 802.11 a, IEEE 802.11 ac, IEEE 802.11 b, IEEE 802.11 g, IEEE 802.11n

- Transfer speed - 200 + 433 Mbps
- Security - 64/128-bit WEP, WPA-PSK / WPA2-PSK, WPA / WPA2
- Compatible OS - Windows10, Windows 8.1, Windows 8, Windows 7, Windows XP

External 6dBi Antenna for Better Connections

The external 6dBi high-gain antenna enables greatly improve wireless signal strength and transmission distance.

Auto-install, Plug, And Play

U10 completes installation automatically once plugged into your computer.

Easily Get A Portable WiFi Hotspot

Supports soft AP mode, U10 can play the role of WiFi hotspot when plugged into a networked computer. Mobile phones and pads enable to access the internet through U10.

Compatible with Various Operating Systems

Compatible with Windows 10, Windows 8.1, Windows 8, Windows 7, Windows XP, to meet the requirements of various desktop and laptop users for wireless internet connections.

Pricing and Availability:

Tenda U10 AC650 Wireless USB adapter is available through Amazon.in and IT reseller shop at an introductory price of **MRP 2250/-** across India.
