

The Sneaker Rack: From Side Hustle To Thriving Business

Pawcatuck, Connecticut Mar 10, 2022 ([IssueWire.com](https://www.issuewire.com)) - Jonathan Mathews is the owner of The Sneaker Rack! The Sneaker Rack is a sneaker and streetwear company. They sell the most coveted kicks while also making their own streetwear. Their clothing brand is very unique. They have a men's line called RACKEDUP and a women's line called RACKEDUP SHAWTY! Some of the popular sneaker brands they have for sale are Yeezys and Retro Jordans. For The Sneaker Rack, inventory sells out very quickly, but they also source sneakers which means you can request a specific sneaker and they will get it for you at the best price. The Sneaker Rack started about a year and a half ago when covid first started. It was created as a side hustle but quickly grew into a thriving business. Their store is strictly based online right now but hope to open a store front as soon as possible.
