

TOP 10 MBA COLLEGES IN DELHI AND India

Top 10 MBA COLLEGES

Delhi, India Apr 2, 2022 ([Issuewire.com](https://www.issuewire.com)) - The Top MBA Colleges In India - 2022| Rank 1 to 10

- ACC TO [MY EDUCATION WIRE](https://www.issuewire.com) - IMs Ahmedabad, Calcutta, and Bangalore are the top-3 most desirable management institutes in the country - as expected. The 'holy trinity' of IIMs is globally recognized as some of the finest management institutes. IIM Calcutta, for the second consecutive year, has been ranked higher than IIM Bangalore, albeit by a minute fraction.
- FMS Delhi has yet again ranked higher than XLRI, and along with the Jamshedpur-based institute is among the Top-5 business schools in India, in 2019. FMS has an edge over XLRI in terms of the brilliant Return on Investment that the institute has to offer - in Rs. 21,000, you can pursue a 2-year MBA course and get placed in the world's leading companies!
- The Indian School of Business, which is effectively the most highly ranked business school when put in the context of management education across the globe, has slipped tremendously from 7th place in 2018 to 12th place in 2019. This can majorly be attributed to the fact that ISB hiked its fees to Rs. 34+ lakhs for its incoming PGP Class of 2020, and the value for money is severely diminished for a business school that offers only a 1-year programme as compared to its IIM counter-parts. In fact, ISB alumni themselves have questioned the ISB administration about the increasing fees, the ballooning batch size, and its implication on quality dilution and placements. For MBA aspirants, perhaps the fact that ISB only accepts scores for expensive

exams like GRE and GMAT and does not accept CAT scores diminishes the desirability of the institute. my education wire team has already updated the correct data on [Top MBA Colleges in India](#)

- Institutes such as TISS Mumbai and JBIMS feature high-up in this list primarily for the Return on Investment that they offer. An MMS degree from JBIMS costs almost 1/4th of the exorbitant fees charged by the likes of IIM Ahmedabad, while TISS Mumbai costs 1/10th of what IIM Ahmedabad charges for an MBA while providing placements that, more-often-than-not, exceed expectations. TISS has improved upon its rankings and features in the Top-15 most desirable business schools in the country in 2019.
- As compared to the NITIE Mumbai has slipped out of the Top-15 to the 18th position, having been replaced by TISS Mumbai. Perhaps the non-engineer *Janata* has voted out the 'Gem for GEMs' in favor of TISS, which accepts candidates from all streams.
