

# Website Re-Launch Announcement

Viha Digital Commerce Pvt Ltd . Launches updated website

**New York City, New York Mar 15, 2022 ([IssueWire.com](https://www.issuewire.com))** - We are thrilled to announce the launch of our redesigned website after many months of hard work and devotion from our team at Viha Digital Commerce Ltd. We are inviting visitors to explore our redesigned website.

Our primary goal of redesigning the website was to create a more valuable, user-centric, and responsive website across all platforms and devices. We wanted to focus specifically on making it easier for our users to understand and find relevant information about our technology solutions for their eCommerce websites.

We have reorganized information throughout the website to make it easier for our visitors to access important information. Genuine client reviews and ratings are also featured in our redesigned website, with the goal of highlighting finished projects and the value-added for our clients.

Visitors to the redesigned website will be able to stay informed on the latest news, thanks to our featured blog posts. Technical suggestions, press announcements, sponsored services, and newsletters will all be included in the content of our blog.

Users may quickly discover useful information on [eCommerce store development](#), Magento store development, key third-party extensions for eCommerce stores, and many ways to enhance the performance and speed of your eCommerce store at our featured post section. Our 100+ blog posts will keep our readers up to date on the latest eCommerce innovation and technology.

Our Experts Team has redesigned with the user experience in mind, and it contains several new features to assist users in swiftly and simply navigating the site and finding our exclusive services. Among the new features are:

**Look Ahead Navigation** reduces the number of clicks required by users to traverse the site.

**Developers' Portfolio and Requests for Quotes** may now be simply requested using new capabilities, making the process faster and more simplified.

**Rapid Response Functionality** ensures that the site is compatible with all browsers and mobile devices.

**Integrated Social Network Buttons:** To strengthen communication with clients, our site includes integrated social media buttons for Facebook, Twitter, and LinkedIn.

We hope you enjoy the new website's fresh look and easy-to-access content. We also intend to rebuild our website as a source of information for individuals who visit our site.

We'd also want to thank our incredible team for donating their time and efforts to make this site what it is.
