

Autism Clinic — CARE Centre for Autism Remediation & Education, IBI/ABA Therapy, Family Training

At C.A.R.E. our goal is to foster an environment that is attuned to the needs of every child, by providing evidence based intervention for individuals with neuro-developmental delays.

Vaughan, Ontario Apr 16, 2022 ([Issuewire.com](https://www.issuewire.com)) - C.A.R.E. has opened doors for the treatment of Autism kids in Vaughan, Ontario, Canada. The clinic is aggressively working towards diagnosing and treating children with autism spectrum disorder, social communication disorders, and learning disabilities. The organization is focused on early intervention for young children and offers evaluation,

diagnosis, therapy, and family support services.

The professionals at C.A.R.E. specialize in I.B.I. treatments/A.B.A. remediation and therapy programs. They pay special attention to each child with individualized programming, supervision, monthly reporting, and monthly meetings. The ABA/ IBI therapy is an evidence-based treatment that helps children with autism develop skills, create connections, and gain confidence.

The clinic services offered by the C.A.R.E. clinic are:

- IBI/ABA
- Social Skills Group
- Parent coaching/consultation
- Camp programs and Camp shadowing
- Psychological and skills assessment

They help children with developmental delays through individually designed programs that primarily emphasize fostering the development of communication, social skills, academic abilities, self-help skills, and problem-solving capabilities for young children with autism and related disorders. Various studies have proven that a significant number of these children can narrow gaps with peers in social and educational functioning, provided they receive early intervention services.

The clinic's approach to autism remediation combines the very best of the proven and highly effective Applied Behavioral Analysis model (A.B.A.) along with errorless learning schemes and I.B.I. treatments that steer children towards success and promote healthy and positive self-esteem. Both methods have shown extensive success in various research studies conducted. Children with A.S.D. have demonstrated phenomenal success when taught within the framework of a structured program such as the one.

C.A.R.E. also offers home-based therapy and assistance with integration into schools, including such things as shadowing programs for children in daycares, community-based programs, sports facilities such as swimming, ball sports, etc.

The clinic is located within reach of each and every individual, so if you are looking for an Autism Clinic or [Autism Center in Vaughan](#), then you can always rely on C.A.R.E. the clinic specializes in autism remediation, ABA/IBI Therapy, Social Skills, and much more.

A.B.A. Family training support is made available to teachers, parents, nannies, etc. The hours of operation are Monday to Friday from 9 am-6 pm and Saturdays 9:30 am - 3:30 pm. Rates are based on the number of hours per week.
