

Binary Torrent LLC, a Delaware-based direct selling company, announced new co-operation agreement.

When has ever direct sales and publishing come together? This is now a reality with the agreement between Binary Torrent LLC and the US-based company Made4Share Publishing.

Dover, Delaware Apr 11, 2022 ([Issuewire.com](https://www.issuewire.com)) - Often we hear about new upcoming direct selling companies launching their consumer products. We now see a truly different approach to this debated industry for the first time. Binary Torrent LLC has just announced its final agreement with the online e-book publishing company Made4Share Publishing LLC. Their service offers Binary Torrent customers a publishing platform to write books, stories, or content for a world audience, and Made4Share will use its marketing power to get the authors maximum exposure.

Most of us use a portion of the day to let everyone know what's going on. And the fact is that social media companies live from our ability and efforts in writing and posting content. No one besides the companies is benefiting from this. So it is time to change that.

The idea behind Binary Torrent is brilliant since there is no other marketing company offering these services. In addition to buying publishing rights, the customers in Binary Torrent will also be given free crypto tokens in a joint marketing campaign from a Panama-based "smart company" to bring liquidity to their tokens. The exciting part of the token is that it is ready for swapping on several exchanges and will be publicly listed during 2023.

Binary Torrent LLC has been working for the past year to finalize its robust marketing plan and will start its pre-launch in May 2022. The team and investors behind the company have over 100-years of

combined experience in digital marketing, direct sales, and financial businesses worldwide.

The initial global support offices are based in the USA, Sweden, and Vietnam. Please visit their website for a pre-launch introduction to learn more about the company.
