

## Coffee Cloud partners with Filecoin, HKBA.club and Edi.College supporting Decentralized Storage, NFTs, & the Metaverse

# COFFEE CLOUD

**Hong Kong, Hong Kong S.A.R. Apr 13, 2022 ([IssueWire.com](https://www.issuewire.com))** - The Metaverse, NFTs, and decentralized storage are the future! Non-fungible tokens (NFTs) are currently the hottest topic of 2022, with a market worth \$17.6 billion U.S. dollars of total sales. The Metaverse market is expected to grow in 2022 to \$47.48 billion U.S. dollars. It cannot be understated the importance of these evolving digital ecosystems. Coffee Cloud is excited to announce a partnership with Filecoin, taking part in the Fil+ program as a Notary. This exciting opportunity will allow Coffee Cloud to provide affordable decentralized storage solutions for a variety of clients, across many different fields and interests. We look forward to providing and sharing this unique service solution with the Blockchain community in Hong Kong.

Coffee Cloud is thrilled to partner with Hong Kong Blockchain Association (HKBA.club) and Education College (Edi.College), to help provide decentralized distributed storage services that can be used to support NFT, Metaverse, and other Blockchain projects. Coffee Cloud CEO Paul Wong stated, "This is an exciting and unique opportunity, allowing us to support a whole new spectrum of ecosystems and clients. We look forward to working with different members of Hong Kong educational and business communities, to develop unique solutions."

Globally, the Metaverse is estimated to reach US\$758.6 Billion by 2026. Blockchain solutions and technological organisations need to prepare and anticipate the next wave of innovations and changes. Coffee Cloud strives to support and provide specific tools to support and assistance to organizations as they take their tentative steps into this digital arena. Coffee Cloud is passionate about new decentralized solutions, supporting institutions and educational facilities developing the next generation of technology

innovators.

As a Filecoin Plus partner, Coffee Cloud is able to provide unique cost-effective decentralized data storage packages. Our other specialities are cryptocurrency mining, where we can help build or guide groups or clients on how to set up their own mining solutions. Coffee Cloud is strategically placed in Hong Kong, with a multinational team that allows them to provide support across the Greater Bay area. With 1,400 servers spread across 4 data centres, making Coffee Cloud is one of the largest mining solutions based in Hong Kong.

Hong Kong Blockchain Association (HKBA.club) is an open-minded organization, pioneering equality, and decentralization. Founded in 2018, HKBA wishes to promote learning, and communication while supporting blockchain technology and its applications. HKBA aims to establish a platform to bridge and connect blockchain practitioners in Greater China and around the world.

Edi.College (EducationCollege.Online) is an Online Knowledge Sharing Platform & Education Community connecting many groups such as Industry Experts, Investors, Teachers, Guest Lecturers, Professors, Students, Entrepreneurs, Incubators, focusing on promoting and educating all areas of Blockchain, FinTech, DeFi, GameFi, Smart Contracts, NFT and Metaverse knowledge.
