

## coinpass.com Launches stablecoin trading for USDC and USDT to UK clients

coinpass is a UK based, FCA registered and compliant cryptocurrency exchange where retail investors and corporate clients can invest and trade in cryptocurrency with a trusted UK exchange

**London, United Kingdom Apr 27, 2022** ([Issuewire.com](https://www.issuewire.com)) - The team at [coinpass.com](https://coinpass.com) is proud to announce new stablecoin listings and trading pairs.

We now offer and support both USDC and USDT trading pairs for our support crypto assets across 44 trading markets.

You can now buy and trade Stablecoins with GBP directly from your bank account and begin trading. You can also deposit your Stablecoins from your wallet to take your trading profits back to your UK bank account in just a few minutes.

Our CEO Jeff Hancock commented: "We are proud to be one of the first compliant UK crypto exchanges to offer full UK stablecoin trading offering for both USDC and USDT to our retail and corporate customers. At coinpass, our vision is to blur the line between crypto and finance into a single digital layer. We believe that stablecoins make up a large part of that ecosystem and are proud to be making further steps forward to delivering our vision for our users."

We will continue to add new tokens to the platform in the future matched against GBP, EUR and now also stablecoin trading pairs.
