

Crooked Path eBikes Has a Large Selection of Full Suspension Offroad eBikes in Tulsa

Tulsa, Oklahoma May 19, 2022 ([IssueWire.com](https://www.issuewire.com)) - Even when people are used to riding their car around town, an electric bike (eBike) can provide tons of convenience for a quick trip out and about. [Crooked Path eBikes](#) can provide people with high-quality service for a low price. They pride themselves on having top-notch components that are affordable for everyone. Here are some of the things to look forward to from this company.

The Founders

Matt and Rebecca Bell come from a background in engineering and design consulting to present people with a marketable item that doesn't cost an arm and a leg. They understand that customer support at an affordable price can help their target audience ride in style.

They want to sell directly to their core base for a more personal experience. The name "Crooked Path" comes from their experience in various industries. They believe people should "Make Your Own Path", not just walk a straight and narrow line.

Amazing Quality

The Rogue eBike comes with different features, such as full suspension, a powerful 750W Bafang motor, Zoom hydraulic disc brakes, an integrated phone holder with a USB port, fenders, a luggage rack, and a comfortable seat to help you ride all day long.

Additionally, these bikes are easy to store in a college dorm or apartment without worrying about taking up precious space. People can charge it at their desk and then ride it to a local shopping or fast-food errand to help get a few things before their next class.

Innovative Design

Even with these affordable bikes, they don't skimp on the quality. These bikes can endure thousands of miles. It has an edgy and stable design to help carry the rider and their stuff without it being wobbly and a danger on the street.

The foldable frame makes it easy to tuck under a desk or put in the car when someone wants to ride around a bike park and stretch their legs. You can also pack it in your RV for longer trips.

Solid for Various Terrains

These bikes can handle different land types, from busy streets to off-road terrain. A person might have to deal with bumps or rocks on the road. Maybe they need to dodge rush hour traffic. These bikes have that versatility for different occasions.

Need a flexible eBike to help with the day-to-day hustle? Look no further than Crooked Path to help make it more convenient to travel around town. Contact them for any inquiries
