

Maylyn & Co. Eco-Luxury Brand Offers Range of High-Quality, Vegan Sleepwear Products Made from Vegan Silk

Maylyn and Co. Canadian Sustainable brand aims to combine Sustainability with Style and Comfort in an industry plagued by fast fashion

Toronto, Ontario Apr 16, 2022 ([Issuewire.com](https://www.issuewire.com)) - As fast fashion and consumerism continue to wreak havoc on the environment, the supply chain, and the global workforce, a new sustainable vegan sleepwear brand is hoping to put an end to the nefarious side effects of the industry.

Silk is the second most environmentally destructive fashion material. Apart from being cruel to animals and abusive to children, pure silk production damages the environment significantly. Maylyn & Co. is proud to produce products made from a [Vegan silk](#) alternative that has the same texture as silk with no worms or animals being harmed during its production. It is also produced without the child slavery that the traditional silk industry depends on, making it an ethical choice for a better tomorrow.

Maylyn & Co's Eco-luxury Sleepwear, Loungewear, and Bedding offers a range of beautiful products made with the highest-quality PETA-approved, vegan, clean fabrics.

We are firm believers in Quality over Quantity and Timelessness over Trends. Every piece is made with love and intention.”— May Deldari

Deldari hopes the innovation used in designing and producing Maylyn & Co's products will foster the environmental impact and social responsibility needed to create a positive impact in the fashion industry.

“Fashion should not cost us our beautiful planet,” she said. “We combined sustainability with style and comfort to let consumers have options for chic, comfortable sleepwear that doesn't destroy the Earth.”

Maylyn & Co's exclusive and innovative Vegan silk fabric is super soft on the skin as it works to reduce sweating at night, keeping the wearer cool and fresh.
