

Miladys M. Palau-Collazo, MD, a Pediatric Endocrinologist with Pediatric Endocrine and Metabolic Center of Florida

Get to know Pediatric Endocrinologist Dr. Miladys M. Palau-Collazo, who serves patients in Port St. Lucie, Florida.

New York City, New York Apr 18, 2022 ([IssueWire.com](https://www.issuewire.com)) - An established pediatric endocrinologist, Dr. Palau-Collazo sees patients at the Pediatric Endocrine and Metabolic Center of Florida. She specializes in treating children with type 1 and type 2 diabetes, obesity, prediabetes, metabolic syndrome, pituitary disorders, growth disorders such as short stature, puberty disorders (early or late puberty), polycystic ovarian syndrome (PCOS), thyroid disease, adrenal disorders, disorders of calcium and Vitamin D metabolism, and certain syndromes such as Turner Syndrome, Noonan's Syndrome and Klinefelter Syndrome among others.

The Pediatric Endocrine and Metabolic Center of Florida is a state-of-the-art facility, that treats children and adolescents with endocrine and metabolic conditions. They are committed to providing the best possible care for all children with health services that are progressive and appropriate, and are continuously enriching and expanding services to meet the growing needs of their patients.

Academically, Dr. Palau-Collazo graduated summa cum laude from the University of Puerto Rico Medical Sciences Campus, and completed her residency in pediatrics at the New York-Presbyterian Hospital / Weill Cornell Medical Center. She then went on to complete her fellowship in pediatric endocrinology at Yale-New Haven Hospital / Yale School of Medicine.

During her fellowship, she participated in multiple research projects on type 1 diabetes including research on the artificial pancreas. She volunteers and is an active board member of the Greater Palm Beach Juvenile Diabetes Research Foundation Chapter (JDRF).

Subsequent to her education, the doctor attained board certification in pediatrics and pediatric endocrinology through the American Board of Pediatrics (ABP). The mission of the ABP is to advance child health by certifying pediatricians who meet standards of excellence and are committed to continuous learning and improvement.

Pediatric endocrinology is a medical subspecialty dealing with disorders of the endocrine glands, such as variations of physical growth and sexual development in childhood, diabetes, and many more. Pediatric endocrinologists, depending upon the age range of the patients they treat, care for patients from infancy to late adolescence and young adulthood.

Happily married, Dr. Palau-Collazo and her husband, Fabian Lozada, have two beautiful children. She is fluent in both English and Spanish.
