

Nalashaa Was Awarded the ISO 27001:2013 & ISO 9001:2015 Certification

Edison, New Jersey Apr 29, 2022 ([IssueWire.com](https://www.issuewire.com)) - Nalashaa is highly delighted to announce that they were awarded the ISO 27001:2013 & ISO 9001:2015 certificates. These certificates bear the testimony to their commitment and excellence towards their [Quality management systems](#) and [Information security system](#) which ensure their services meet the needs of customers.

The certification audit was conducted by Intertek and is accredited by UKAS in Mar'2022.

Ashwani Jasti, the founder and CEO, congratulated the team on achieving this milestone.

Solutions That Nalashaa Excels At Over the last decade, they have been offering IT solutions to the [healthcare, banking, manufacturing, and education industries](#). Their primary market is the US, the European Union countries, and Australia.

The US healthcare market can be bifurcated into four broad market segments: Providers, HIT Vendors, Payers, and Devices. Nalashaa has been catering to the demands of these four industries since its inception.

Across industries, Nalashaa offers application development, cloud solutions, data services, mobile app development, quality assurance, application maintenance, DevOps solutions, and UI/UX solutions. Additionally, Nalashaa offers RPA and automation services, AS400/IBMi solutions, and Microsoft Dynamics 365 solutions. The Brand Story

Headquartered in Edison, New Jersey, Nalashaa is a minority-owned organization with a development center in Bengaluru, a city in the south of India.

Though established in 2012, its predecessor companies have been providing IT Services since 1997. In the USA, their clientele includes SMB Enterprises, and Federal and State Government Agencies.
