EIDON®
MINERAL SUPPLEMENTS

Beauty Water

PURIFIED NATURALIZER WATER - Enhanced With Silica Minerals Silica is essential for collagen formation and connective tissue strength, healthy bones, joints, skin, hair and nails.*
1.5 liters

La Jolla, California Apr 26, 2022 ([Issuewire.com](https://www.issuewire.com)) - Richard H. Davis, President of Beverage Marketing USA and Nautilus Mineral Waters of America, states that his company intends to produce and market a Beauty Water line of products. The new Eidon Silica enhanced "Beauty Water" is being sold as an alternative to anti-aging treatments like Botox and collagen injections, but unlike ordinary bottled water you must spritz "Beauty Water" all over your body three times daily, as well as a drink as

much as a liter or two to see visible results. This safe and effective natural beauty treatment is found at many European Health Spas as a mineral treatment to help repair fine lines and the depth of wrinkles. Beauty Water helps repair the condition of aging skin while preventing future damage. Natural silica is essential for collagen formation and can help restore the skin's youthful appearance over the long term.

"Beauty Water is delicious and tastes like a fine European mineral water, but instead it gives you a shot of that essential rejuvenation compound liquid silica," said Renne Godden-Gonzales, a part-time actress and resident of La Jolla, California whose on-screen credits include the hard-edge drug thriller TRAFFIC, starring Michael Douglas and Catherine Zeta-Jones. Recently she tried the silica-enhanced water out of curiosity. "A fine sea mist of Beauty Water makes you feel refreshed as if you just got out of a sauna," she said.

"We are very enthusiastic about the introduction of Beauty Water as part of a natural beauty regime," said Rick Wagner, President of Eidon Inc. "Beauty Water utilizes Naturalizer water purification technology that provides a cultured mineralized water base for Eidon Liquid Silica Minerals, this is equivalent to the ancient Japanese tradition of soaking in mineralized "thermal waters" of volcanic origin which after an hour in the 104-degree water the skin becomes supple and will naturally pick up trace minerals. Simply apply a micro-fine spray of Beauty Water after exercising or bathing to help tighten tone, and refresh the skin. In addition to the exceptional hydrating properties of the Naturalizer water, the benefits of natural silica provide an essential trace mineral lacking in the skin," stated Wagner.

About Eidon Ionic Minerals

Founded in 1996, Eidon Ionic Minerals is dedicated to quality and commitment to educating the public about the true functions, requirements, and benefits of minerals. Eidon provides its clients with a revolutionary, highly absorbable line of liquid minerals. Each mineral is scientifically formulated in our own lab and then carefully tested by private laboratories to ensure high quality and purity.
