

Nirmalaraju 'Nila' Brings Joy And Positivity To You, Right To Your Homes!

US-based corporate leader & healer, with her remotely offered Joyous Body protocol (JBP) program, is transforming lives.

Mumbai, Maharashtra Apr 14, 2022 ([Issuewire.com](https://www.issuewire.com)) - US-based Indian holistic healing and wellness coach, NirmalaRaju aka Nila is out to change the quality of life of people across the globe, with her innovative and life-changing wellness programs, which are simple and offered remotely in these pandemic ridden times.

A corporate leader turned healing specialist, Nirmala's mission is to create lasting wellness and good life for people who chose to follow her methodology, which has till now been offered to people in about 114 nations, and has been taken by over 1000 people in India itself. Nila's USP is a 2-hour course, called the Joyous body protocol, JBP, that can be offered remotely, in the virtual model.

JBP is a course that has been channeled by Nila and offered to her clients all over to activate the body's own healing capacity. The course is part of a more holistic body of work she calls Light key wellness system. During the JBP session, Light keys and high vibrational symbols are applied to various parts of the body as needed, with an aim to create optimal health, and also freedom from a whole lot of chronic pains and aches, which hit the human body over time. The USP of the JBP is that it restores the body's healing capacity naturally, thus ensuring an overall sense of wellbeing and vitality.

Speaking to the media here, and elaborating to the media about her short wellness program (course), NirmalaRaju, Corporate leader, and Healer said – “Having been a part of the corporate world, I know exactly how stress impacts our physical and mental health! These are truly extraordinary times that everyone needs to put more emphasis on self-care. Joyous Body Protocol is a very simple way to take care of yourself and your loved ones from where you are! Wellbeing is an easy choice with JBP.”

My 20+ years of healing experience have helped me put the JBP course together considering the fact that stress and a fast lifestyle, with less attention to lasting health, are almost commonplace now. In this, people do not have the time to spend on long-duration healing courses; Also, such courses become unfeasible, given the short attention span, which is a key factor in learning, or creating programs now”

“The JBP course is very short and power-packed which is offered online by me and the facilitators trained by me to people all across the world. Within just a couple of hours, they can imbibe the methodology, and get certified to offer to other people as well. A JBP session takes just 10-20 minutes but the benefits are far and wide. It’s so revered by the practitioners around the world because it is so empowering.” she added.
