

OniBits partners with Polygon Studios!

OniBits will be one of only a handful of select projects that bring an audio.

Andover, Minnesota Apr 28, 2022 ([IssueWire.com](https://www.issuewire.com)) - Trusted by Polygon, OniBits and the team of engineers and designers are proud to announce an official partnership with the newly opened Polygon Studios, cementing OniBits' goal of bringing a fully 360degree multimedia experience unlike any other to the holders of the Polygon minted OniBits NFTs.

OniBits will be one of only a handful of select projects that bring an audio, and visual experience combining Japanese culture, Cyberpunk themes, and more to users of the NFT.

Users who own one of the NFTs will have exclusive access to the Sandbox game, a manga comic, and soundtrack developed by synthwave artists, with competitions for exclusive physical versions of the comic and soundtrack in the works.

The whitelist form is now open, anyone providing their public polygon address, will automatically receive access to our Preview page with a demo of the game, a preview comic (translated into six languages), and two exclusive tracks from the soundtrack. Learn about the lore, and dive into the fantastic world of the OniVerse!
