

PixelPlex Provides Information About Its Highly Sought-After Mobile App Services

PixelPlex mobile development services help provide a mobile interactive medium for businesses and consumers, leaving both parties extremely satisfied.

New York City, New York Apr 19, 2022 ([IssueWire.com](https://www.issuewire.com)) - PixelPlex, a standout technological solution creator, provides updated information about its [mobile application development services](#).

The company, through its ingenuity, has positioned itself as an ideal developer for high-quality mobile apps that guarantee optimum productivity. PixelPlex places client priorities and business growth in mind, ensuring that businesses reach their ideal audience via aesthetically beautiful Android, iOS, and cross-platform applications.

PixelPlex provides bespoke solutions to its clients, and this has shored up its client appeal. By sticking to noteworthy values, PixelPlex has an 85% repeat client ratio; and 100% quality assurance certification for all its solutions.

Its mobile app development services are further split into three different arms, which are: iOS mobile app development; Android mobile app development; and cross-platform mobile app development. For iOS app development, PixelPlex ensures that its iOS applications have a pixel-perfect user interface; and stunning performance irrespective of the load or connection. Android app solutions are also made to be scalable and reliable. Hybrid solutions benefit clients as they no longer have to decide whether they want an Android or iOS app because a hybrid app can be deployed on all OSs at once.

The company's CTO, Viktor Pulyak, further explains the steps PixelPlex's development team follows in its developmental procedure. He noted that each project commences at the project discovery phase; prototyping & MVP, app Development & QA; and ends at publishing & support.

PixelPlex mobile applications are currently thriving in quite a number of industry verticals such as logistics & distribution; fintech & cryptocurrency; telecommunication & social networking; e-learning; healthcare; gaming; retail; and lifestyle & travel.

The company has a rich portfolio of projects that entail the Intel IoT app; Green hypermarket eCommerce app; BMW IoT mobile app.

Accolades from corporate executives like the CEO of FootballNet Global give credence to PixelPlex's claim of being the best. The company expresses readiness to partner up, and create solutions that suit the target audience's taste.

About PixelPlex

PixelPlex is a mobile app development company with 6 offices across the globe. It has over 40 seasoned mobile app developers and has two unicorn products in its portfolio.
