

## Rescheduling of Disbursements of trading income / profits

Trading of bank instruments / international bills of exchange / medium term notes / long term notes

**Beverly Hills, Florida Apr 4, 2022 ([IssueWire.com](https://www.issuewire.com))** - Financa Investment Ilc and Cardife Capital Investimentos e Participacoes Eirelli (Brazil) have agreed to re-schedule all disbursements of funds related to the monetization of bank instruments / international bills of exchange/medium-term notes / long term notes/bank drafts on a quarterly basis instead of a monthly basis. Hence, all disbursements scheduled for April 2022 will now be effected in June 2022. The delay has been caused due to sanctions imposed against certain Russian banks where large funds are deposited. Due to recent sanctions imposed against Russian Federation and certain Russian banks, funds cannot be withdrawn from the Russian banks which are trading partners of Financa Investment Ilc and Cardife Capital Investimentos e Participacoes Eirelli (Brazil). Consequently, it has been resolved that current disbursements scheduled for April 2022 should be postponed till June 2022 while trading activity will continue as usual.

All concerned parties/beneficiaries of the trading income/profits are hereby intimated to take note of this development.

For and on behalf of

Financa Investment Ilc / Cardife Capital Investimentos e Participacoes Eirelli (Brazil)
