Vancouver, British Columbia Apr 22, 2022 ([IssueWire.com](https://www.issuewire.com)) - Canada has always been a dream country for many to visit. Moreover, [HTTPS://WWW.CANADA-VISA-ONLINE.ORG/VISA/](https://www.canada-visa-online.org/visa/) has been working on providing hassle-free visa issuing services for many years. If you are someone, who is looking to travel to Canada, then you must first apply for Canada Visa online. The actual process started back in 2015 when the United States and Canada reached a joint agreement on a Visa waiver program that would let certain visa-exempt country's citizens visit Canada with only an ETA (Electronic Travel Authorization). It works as a visa waiver document that lets foreign nationals visit the country for multiple purposes.

The process has brought relief for many, as applying for a Canadian visa doesn't require anyone to visit their nearest Canadian embassy for any paper-related work. The online process by this agency presents a form, that is very easy to fill up and can be completed in less than five minutes. Visit the website's Canada Visa Application Online form section and fill in all the required details such as your passport number, passport issue, and passport expiry date. Once your form fill up is completed, the agency looks for all the possible mistakes in the form and corrects them in the best way possible. Your online eTA can be delivered within a minimum of 24 hours and a maximum of 72 hours after the checking done by IRCC (Immigration, Refugees, and Citizenship Canada). Since it is an online process, your Canada eTA will be delivered to your e-mail.

Citizens of foreign countries must also note that the validity period of the Canada eTA is valid for a period of 5 years. However, you can plan your stay for a maximum of 6 months at a time and visit the country multiple times. Only citizens from the mentioned 57 countries on the agency's website must apply for the eTA to Canada. The valid purposes that you can mention while applying for Canada eTA are transit or layover, tourism, business, and planned medical treatment.
