Stellar Reviews today announced a new service.

Stellar Reviews is a business ally that offers a new way for ANY BUSINESS of ANY SIZE to establish,

improve and maintain their online reputation and presence on sites such as Google, Facebook, Yelp, and others.

“97% of people look up reviews before choosing a product or service,” says Michael Hall, at Wombot. “Amazon has us programmed to look at reviews prior to our selection.”

Features and benefits include.

1. Our software makes the review process extremely easy by allowing businesses to text or email a request for a review or simply scan a QR code.
2. Our software can also be customized to have the reviews go to any platform you choose (Google, Facebook, Yelp, etc..).
3. Our unique Gate system allows our clients the ability to STOP negative reviews from going public and address any issues with that customer in order to rate their performance again.
