

**The mythological author NILESH KUMAR AGARWAL comes up with another jewel "Kabir Ke Dohe Aur Ramayana"**

**Meerut, Uttar Pradesh Apr 19, 2022 ([IssueWire.com](http://IssueWire.com))** - Indian mythological author Nilesh Kumar Agarwal started his journey back in 2020. Since then, he has sensitized society to the various cultures present in INDIA. He first published "[INDIAN TRADITIONS AND THEIR SCIENTIFIC REASONS](#)" in an effort to educate people and society on the importance of their traditions and why we should follow them. It was a huge success, then he went forward with other books like "[THIRUKKURAL](#)" and now a jewel "[KABIR KE DOHE AUR RAMAYANA](#)" (Notionpress; Amazon; Flipkart; Rs.149). His all books are available in INDIA, UK, and USA online stores for all his readers through Amazon, [Flipkart](#), and NotionPress. Her earlier books, which were written in an attempt to educate society about their traditions and knowledge of our ancestors, were loved by their readers.

The idea behind the publication of this book was to raise awareness of Sant Kabir's ideology and also to convey the importance of RAMAYANA. Kabir's verses were inspired by his life experiences and what he faced. While RAMAYANA was written with the sole aim to educate humans about the human life cycle. So that they can easily understand their life and the purpose of their presence on earth. Kabir Das, on the other hand, was a mystical and holy poet whose writings are influenced by Hinduism and all other religions. Its verses are found in the Sikh scriptures under the name of Kabir Sagar.

Kabir's ideology was unrelated to a particular religion. He conveyed that anyone who is on the path of righteousness, considered everything, living and non-living, as divine, and who is passively detached from the affairs of the world, the truth remains with that person only. Some modern commentators have tried to present Kabir as a synthesizer of Hinduism and Islam and created a false image of him. Kabir has always rejected the hypocrisy and ill-considered rituals evident in various religious practices of his time, including those of Islam and Hinduism.

The combination of the verses of Kabir and RAMAYANA not only educates society, but we will also be able to learn how important the sacrament is in someone's life. This world is full of myths and one must learn the way of dealing with these obstacles so that one can find out the real reason for being on earth as a human. This book by Nilesh Kumar Agarwal will guide you and help you to achieve success in your life. This looks like the games of the modern world. As long as you don't read the rules of this game, you can't finish it. This book will explain to you the rules of living in this world and accordingly you can plan out things and it will definitely make your life easier and stress-free. We hope he will keep educating society in his unique way and bring more gems like this.
