

The ultimate solution for supporting your community of entrepreneurs

An all-in-one platform of startup deals & resources for monetizing networks and communities.

Silicon Valley, California Apr 1, 2022 ([Issuewire.com](https://www.issuewire.com)) - "Out of the pandemic struggle launches OWNBN, a solution inspired by the rise of global startups and business content creators fueled by the pandemic. An all-in-one platform of startup deals & resources for monetizing networks and communities."

On the back of the success of supporting Santander Bank's accelerator and thousands of global startups. Award-winning Buildily, launches OWNBN - A new online global platform for content creators, business coaches, and VCs to capitalise on the entrepreneurial rise by supporting their network or community of entrepreneurs with \$350k in deals, discounts, and resources.

Entrepreneurialism has been severely accelerated due to the adverse economic effects of the Covid-19 pandemic. More people than ever have started businesses due to losing their jobs or seeing entrepreneurship as an alternative to a traditional 9 to 5 career.

"Starting and growing a business is challenging, and it's becoming increasingly difficult for aspiring entrepreneurs to get the resources they need to succeed," said Rob a Buildily spokesperson. "OWNBN was created to help our partners and their community or network of aspiring entrepreneurs and business owners to lower their burn rates and barriers when starting or running a business."

OWNBN, therefore, looks to solve the problem of high burn rates and barriers when starting or running a business by partnering with leading SaaS software and no-code providers including Google, IBM, AWS, Stripe, Notion, Bubble, and Hubspot to provide huge savings on tools needed to start or grow a business.

Content creators, coaches, and investors play an important role in the entrepreneurial ecosystem, and OWNBN provides them with a simple way to extend their support. "We're excited to launch the OWNBN platform and help our partners provide even more value to their networks," Rob said.

OWNBN platform is available globally. For more information on OWNBN, visit ownbn.com
