

Torque360 Announces Freemium Model For All Auto Repair Shops

New York City, New York Apr 14, 2022 (Issuewire.com) - Torque360 –the all-in-one-management software – is ready to launch a free tier of its auto repair software. The company unveiled its free plan on Instagram, Facebook, and LinkedIn. The launch date for their FREE plan is April 1st, 2022.

"We are excited to announce a new free plan for Torque360 users," said CEO Salman Sarwar. "Our aim

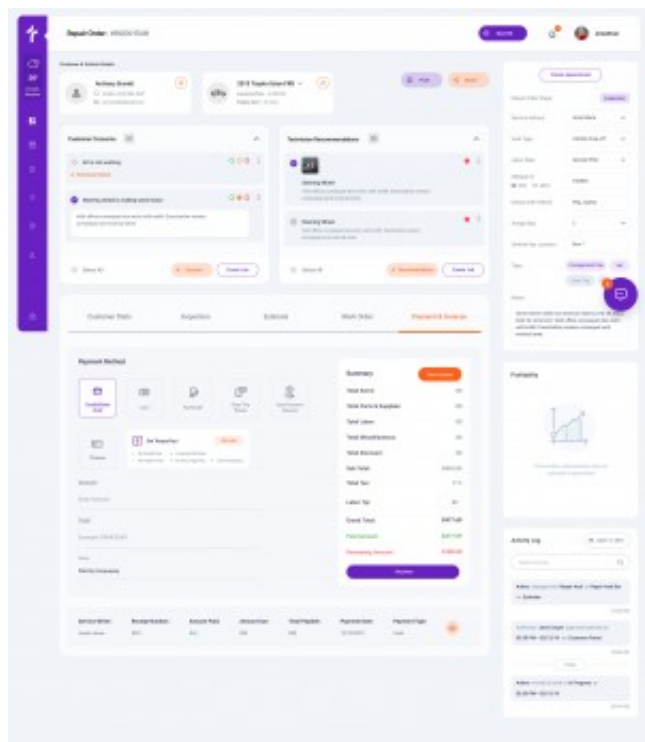

is to make operations seamless for auto repair shop owners and provide the best solutions with our software. We want every small auto repair shop to thrive in the market by utilizing modern technology. Now that we offer Torque360 for free, anyone is welcome to try our software for their needs at no additional cost to their business."

[FREE SIGN UP](#)

Torque360 is a SaaS-based company. They are introducing user-friendly cloud-based software to serve auto repair businesses of all sizes. They offer a wide range of plans with various price options. The customer has the choice to opt among three levels which include a Free, Plus, and an Advanced Plan.

This feature-rich [auto repair software](#) offers powerful digital inspections, estimates, direct two-way communication with customers, integrated Torque payments, a technician portal, powerful reports, and a customer aging module – all wrapped up in one system.

Torque360 aims to become a complete all-in-one solution for garage owners and let them run their business with profitability. The objective behind the launch is to give this truly tailored-made software for free to small repair shops. The company wants to address the complaints about paperwork, data loss, late deliveries, and inaccurate inspections.
