

# TraceSafe Partners with Dynamo Singapore to Deploy Smart Building Solution in Malaysia's KL Eco City

SafeTown will connect and optimize security operations and increase productivity using smart auto-detectors and advanced software for real-time route management

**Singapore, Singapore Apr 27, 2022** ([Issuewire.com](https://www.issuewire.com)) - [Tracesafe, Inc.](https://www.tracesafe.com) ("TraceSafe") (CSE: TSF), a global leader in location-aware Internet of Things (IoT) for large-scale industrial and enterprise operations, has expanded operations in Asia by partnering with Dynamo Singapore, a leading facility management company specializing in project and contract management, safety audits, and engineering consultancy. Through this partnership, TraceSafe will deploy SafeTown, its Smart Building solution at KL Eco City, a 25-acre mixed-use integrated development comprising commercial offices, luxury residential towers, lifestyle retail outlets, and a hotel in Kuala Lumpur, Malaysia.

SafeTown will help facility administrators and managers control their security operations through BLE (Bluetooth Low Energy) devices, smart sensors, and an advanced analytics dashboard. The solution will provide access to all security personnel's route information, route violations, and attendance reports to help optimize scheduling, operations, and on-site assignments. The customized solution is designed to automate the security team's reporting process, right from arrival on-site to commencement of security prowling route, until the end of their shift.

"We are excited to welcome Dynamo Singapore into our partner ecosystem to serve new customers in the region. A connected workforce and automation are key to productivity in large-scale real estate operations. With SafeTown, KL Eco City will have unprecedented visibility and insights to allocate resources, improve productivity and make better business decisions," said Jasling Ong, Managing

Director- TraceSafe Asia Pacific Private Limited. “TraceSafe has pioneered connectivity solutions powered by IoT and SafeTown will be a key offering in our growing portfolio of efficiency and sustainability solutions.”

“We’re very happy to partner with TraceSafe, and to provide an advanced security workforce management platform for KL Eco City,” said Luke Koh, Chief Executive Officer, Dynamo Singapore. “By fully automating security operations, SafeTown will substantially reduce the manual workload of the facility managers and enable more efficient and optimized operations.”

Along with SafeTown, which will connect the security workforce at KL EcoCity, TraceSafe will work with Dynamo Singapore to provide new sustainability and ‘Green Buildings’ solution for the project. The details of this solution will be announced in the coming weeks.

### **About TraceSafe**

TraceSafe provides Internet of Things (IoT) solutions transforming large-scale industrial and enterprise operations with unique wearables, industrial-grade sensors, and an award-winning analytics platform. The Company’s hardware solutions, powered by advanced low-power Bluetooth beacons, work together with its proprietary software to provide mission-critical data enabling safer, efficient, and sustainable enterprise environments. With a presence across North America, Asia, and Europe, TraceSafe’s solutions are trusted by leading organizations in healthcare, hospitality, construction, events, education, and government.

### **About Dynamo Singapore**

Dynamo Singapore was founded in 2016. Dynamo Singapore is constantly exploring new technology, providing customized designs to facilitate our clients' needs in building and facilities management.

Our services include Equipment Life Cycle Monitoring, Building Automated/Management systems, Green Energy Generator, AI Location Tracking systems, Visitor Management systems, AI Crowd Management systems, Dynamo Singapore believes in providing a safer and greener working environment.
