

UltraProlink launches High Powered PD-GaN Charger for perfect compatibility with Power Delivery Devices

New Delhi, Delhi Apr 18, 2022 ([Issuewire.com](https://www.issuewire.com)) - UltraProlink, a technology brand, which helps consumers to get more out of their gadgets has launched Boost PD65 GaN Charger which can help in providing seamless charging and compatibility with the new crop of power-hungry power delivery enabled devices.

The latest GaN technology allows high power in a compact form factor without overheating. It consists of one QC3.0 USB-A port & dual Type C ports for PD-enabled laptops, tablets, and smartphones. Its high-power output sharing between three ports allows the user to enjoy fast charging even when simultaneously connected. A 100W PD cable in the box is given to ensure perfect compatibility and a rich user experience.

This Multi-port USB C Power Delivery charger comes with protection from Over-Charge, Over-Heat, Excess Voltage& Short Circuit. This fast charger adapter is based on GaN technology which allows us to deliver extremely high power in a very compact form factor.

This PD GaN charger comes with 3 ports and intelligently distributes 65W of power between the 3 ports. When using either one Type C port it will deliver pure 65W or 30W from USB-A. The biggest benefit is one common charger for multiple devices which are power-hungry.

Boost PD65 is the one-stop charging solution that works flawlessly with virtually all USB-C and USB-A powered devices, from MacBook's, iPads, and iPhones to Samsung Galaxy Tabs& many USB-C enabled devices.

With this one can charge MacBook Pro from 0% to 100% in only 2.2 hours via a USB-C to USB-C cable with an E-Mark chipset (Type C – C Cable Included in the box). When used with an iPhone or any other smartphone which requires power delivery, enjoy quick charging from 0% to 50% in 30 mins

Speaking on the launch, Mr. Pankaj Mirchandani, Founder & CEO, of RCA Techmart Pvt Ltd (brand: UltraProlink), says, “We at UltraProlink have always come up with innovative gadgets which are genuine, durable, and designed for mobile and laptops. The Boost PD65 GaN Charger is something that we have added to the kitty in order to provide seamless charging to our customers. Most people are using mobiles and laptops for the entire day so it is important that they need quick chargers with uncluttered workstations. This GaN Charger serves both the purposes of quick charging and safe charging. “

UltraProlink has been well-known for providing high-quality products such as Bluetooth Headphones & Speakers, Power Banks, Connectors & Cables, Car Accessories, and more.
