**Vorz Creator Economy Entertainment Metaverse App is Rushing in the EVM Multichain!**

**Metropolitan Manila Area, Philippines Apr 20, 2022 ([IssueWire.com](https://www.issuewire.com))** - **Vorz** is one of the early metaverse startups in the Philippines that is effort building its own social app that resembled that of the TikTok app but that's not it! The Filipino app is a crypto-powered entertainment multichain metaverse app that aimed to be the MVP of the metaverse entertainment category in that not so far away future. With its own NFTs economy and marketplace to allow its users to trade their own VORZ token & NFTS soon through its Creator Economy integrated in-app wallet.

According to [dataportal](https://dataportal) there were approximately 92.05 million social media users in the Philippines in the year 2022 of January. Project Vorz will now use that chart to onboard every Filipino inside the cryptocurrency metaverse as a homegrown app while steadily going global. This will allow everyone who doesn't know crypto inside the app to understand the basics of blockchain teaching them cryptocurrency from the app's live stream features while letting them earn VORZ token in the long run with its Fun2Earn, Engage2Earn, Play2Earn, and more ideas inside the app.

[TikTok beats Facebook](https://www.issuewire.com) in the most downloaded app back in 2021 and also [Topped Google](https://www.issuewire.com) dominance as the most popular website in the same year as well. [TikTok valuation](https://www.issuewire.com) is at \$50B, and Bytedance its parent company is estimated at a \$450B valuation.

The project Vorz will now use that chance to build the metaverse entertainment Vorz App by launching its VORZ token in the Multichain pushing the idea of web3 TikTok while combining it with an NFT Marketplace like that of OpenSea. Vorz's original idea comes from way back in 2020 after India banned TikTok. A Vocal For Vocal PH to push every talent in the country to build its own Unicorn hub tech valley in the Far East.

VORZ token launched its presale IDO in the [Pinksale Launchpad](https://www.issuewire.com) on April 19, 2022, at 22:59 UTC which will end on April 26, 2022, at 12:27 UTC.

*Everyone can join the People's Metaverse building a new kind of crypto-powered web3 entertainment metaverse social app owned by the people instead of the giants!*
