New York City, New York May 24, 2022 ([IssueWire.com](https://www.issuewire.com)) - This June 2022, 30 artists will be coming together to share their 30 NFT art collaborations. One collaboration will be revealed every day, which will be available to purchase from the pairs of artists. At the end of the event, a montage of the 30 collaborations will be auctioned, with proceeds going to the charity "Rescue".

An overlooked aspect of the NFT art industry is how it allows artists across the world to collaborate. Never before has it been so easy for an artist in Australia to collaborate on a piece of art with an artist in the USA, Asia, Europe, or anywhere in the world. It's bringing together creative artists who would never have worked together before.

Tara Roskell, an Artist from Northamptonshire, England said, "The NFT industry often focuses on the collectibles market and artists earning millions. The event aims to shine a light on hard-working creative

artists who create single (1/1) art or small run pieces of art rather than mass collectibles.”
