Bengaluru, Karnataka May 4, 2022 (IssueWire.com) - [All In One App](#),With over Ten million active monthly users, the app has proven to be one of the best doc readers apps for Android users. Every user who has installed it can use it to read all the crucial documents of formats like .pdf,.doc,.ppt, etc., with just a click of a button. They can also use it to convert the files from one format to another, not just viewing the files.

Apart from this, the best part of the app is its e-signature feature that allows users to sign digitally and thus avoiding printing while also saving the trees. Not every doc reader app in the Android store has this feature, and this main USP of the [A1 Office app](#) is now helping it stand out as a pioneer doc reader app. Thanks to the app developers for the impressive UI/UX, navigation ease of the app, and operational efficiency.
