

ADAPTATIONS: Pune's First Phygital Art Exhibition with NFT by JUMBISH

Pune, Maharashtra May 11, 2022 ([Issuewire.com](https://www.issuewire.com)) - <https://jumbish.co/> is a social NFT art marketplace to buy or sell the most exclusive and rare artworks in the world.

Exclusive Invitation to this **first unique Phygital exhibition in Pune!** The Phygital exhibition has physical artworks on display with the corresponding NFT in the digital world. And every art collector gets

both **Physical and digital (NFT)** versions of the artwork!

The exhibition is curated on the theme of “Adaptations” both in the story the artworks tell and also in the form of adapting to the new technology in the traditional art exhibition.

Venue: MonaLisa Kalagram, Koregaon Park, Pune

Inauguration on: 14th May 2022 at 6 PM

Theme: Adaptations of Culture, heritage, life, and Technology.

We reveal the stories of ourselves and our pasts in this exhibition, not limited to our

immediate upbringing but generations before us, showing the struggle, life, and culture of souls before us.

The works in " ADAPTATION" demonstrate that history continues to reverberate through time, impacting the present and future.

They seek to uncover these histories, to hold true to the past as the only way to move forward. They aspire to understand who we are.

The exhibition showcases compositions in multiple disciplines by like-minded contemporary artists. Reinterpreting due to changed circumstances.

"Our individuality is created by the myriad experiences we go through over the years of our life."

The unique format of the exhibition:

This exhibition will display a diverse set of 14 artists from 8 different cities including 1 from Mexico. I have been looking at displaying the beauties of different cultures and heritage which we reinterpret due to the emerging new circumstances. Each artwork will have its provenance details on the NFT platform launched by **Jumbish**. The BETA version of the Jumbish NFT platform is launched along with this exhibition. Exhibiting a new journey of art & technology from the cultural city of Maharashtra, Pune.

It would be really appreciated if you could help spread the word as well as attend the show.
