Hosted by Centuro Global and co-created with business leaders from across the world, the conference is slated to provide value and insight to professionals, innovators, and entrepreneurs.

Flagship features of the ambitious event include a vast array of speakers, networking opportunities, and valuable workshops that seek to equip attendees with insight into international expansion and the tools to take advantage of its opportunities.

A wide variety of themes are aimed to be addressed throughout the course of the groundbreaking event, including the rise of private capital and boosting economic recovery after COVID-19.

Both Member and Non-Member packages are available to those looking to broaden their aspirations in business and beyond.

Global Expansion Conference 2022 is set to take place at the Four Seasons, Park Lane, London from May 25th to 26th.

“We have chosen to host our conference here to match the city’s atmosphere of inspiration and innovation,” the hosts explain, keen to evoke the pioneering spirit of the event’s potential.

One of the most impressive aspects of the planned conference is the sheer depth and variety of the speaker list. Participants include Russ Shaw CBE, the founder of TLA and Global Tech Advocates, and Pauline Elizabeth Lewis named one of The Guardian’s Top 20 Women in Global Diversity.

“The conference is focused on how to scale and grow your business beyond the hype of innovation on a global scale,” Centuro Global outlines. “Experts will discuss the roadmap for a collaborative future between companies, developing sustainable partnerships for global expansion.”

In addition to the opportunities offered by attendance at the landmark event, there are also sponsorship packages available to businesses who seek a place among the internationally-minded. The bundles range from Bronze, which includes brand placement in the event guide, to Platinum, which maximizes a

business' exposure through generous promotional placements.
