

Creating a limited company in 24 hours in Spain is possible telematically

This was stated by Yolanda Domínguez, Commercial Manager of Autónomos Pymes Asesoría Online SLP, in an interview given to the Radio TeleTaxi Valencia radio station on March 14

Madrid, Spain May 9, 2022 ([Issuewire.com](https://www.issuewire.com)) - Talking about the creation of online companies, to the question of whether it took a long time to create them, the answer was clear and precise: "The process of creating your companies is very fast. There are cases in which in only 24 hours you have had your company set up".

In addition, **to create the company it is not necessary to provide share capital in cash or to have a bank account of the company in incorporation.**

The best professional guarantee for the creation of a company

On the other hand, in this interview the great experience of [Autonomos Pymes](#) Asesoría Online SLP in the [creation of companies](#) for the last 10 years was highlighted, having incorporated more than 2,500 companies throughout Spain.

This high volume of companies created is undoubtedly a factor of success of this Professional Society of Economists, and a guarantee for those entrepreneurs or self-employed who want to create their company.

Speed, experience, and a very low cost of creating a company

Creating a company in 24 hours is undoubtedly possible, but if the cost of incorporation is also small, this is excellent news.

This is what Yolanda Domínguez pointed out in the interview: "The cost of creating your company is 290€ plus VAT. This amount includes all the expenses involved in the incorporation".

The expenses included in the constitution are: the first request of name reduced fees of the constitution of Notary and Mercantile Registry according to RDL 13/2010, census communications AEAT, high autonomous and TGSS communications, and professional advice.

This price to create a company is the one that Autonomos Pymes Asesoría Online SLP has been applying since the beginning of its activity as a Professional Company in 2012.

A Professional Company that adds value to the creation of companies in Spain.

Autonomos Pymes Asesoría Online SLP is a Professional Company of Economists that brings the value of its 10 years of existence and the experience of more than 2,500 companies created in Spain.

Personalized attention, listening to the entrepreneur, and the self-employed, to understand and meet their present and future needs when creating a company, speed, and a cost of incorporation unchanged for 10 years, is part of the DNA of this Professional Company.

Of course, the services of Autonomos Pymes Asesoría Online SLP are not limited to the creation of a company, but also include tax, accounting, and labor advice for SMEs and self-employed, being optional.
