

DashClicks Introduces a Revolutionary Website Builder: The Sites App

Fort Lauderdale, Florida May 12, 2022 ([IssueWire.com](https://www.issuewire.com)) - DashClicks, a renowned white-label fulfillment service based in Fort, Florida, introduced “Sites,” an application allowing its clients to select the template of their choice and have their custom website built in seconds.

The Importance of A Website

Today, owning a website is of paramount importance. First and foremost, a website educates your potential customers about who you are, what you stand for, and what you represent. This only increases the chances of them making a purchase from your business. Having a website also adds to your credibility and gets leads for your business.

But these are just the benefits of having a website. In order to stand out from their competitors, businesses need to have a well-rounded, SEO-friendly website.

Looking at the current scenario, it's easy to say that building such a website can take weeks. You not only have to search for freelancers to carry out the work but also need to get it built as per your requirements.

The Sites App

This is where DashClicks' Sites App can speed things up. DashClicks' clients can easily use the builder to create, manage, and optimize their websites. The great thing about the app—you don't require any tech experience or coding knowledge to create your website. Businesses are able to create beautiful, responsive websites in a few seconds, that too in a hassle-free manner.

Another great feature of Sites is that you can access detailed website analytics, which helps you check the stats of your site to analyze its performance. Also, Sites include hosting that is done on AWS and an SSL certificate to ensure the site is protected.

About DashClicks.com

DashClicks has been providing digital marketing services to SMBs for over 10 years now. You can call it a hybrid of a digital marketing agency and a software company.

The mission of the company is to help small businesses create a transformational experience that positively impacts the lives around them.

With the help of the Sites App, DashClicks empowers its clients to design the website they always wanted to create, that too in almost a jiffy. Plus, the clients who already have an agency website from Version 1, are also able to start over with a brand new Version 2 agency website in an overall easy process. Refer to this video for more info -
