Do Your Job! National Sick Out

We will do our jobs when you do yours.

Royal Oak, Michigan May 26, 2022 (Issuewire.com) - Project 526 has been at the forefront of protecting working and middle-class families. Join us for a National Sick Out starting May 27, requesting that legislators do their jobs and protect teachers and students. We will do our jobs when you do yours!

We are asking teachers, students, and parents to pause in the wake of school shootings to call on our national and state lawmakers to take common-sense accountability. Please join the rest of the free world and allow our students to attend school without the threat of violence. Let us end school shootings now!
