Founders | Team

[Elefad](#) is founded by two fellows of New Delhi, Tanisha (Founder) and Kartik (Co-Founder) while practicing their first semester of computer science engineering. They decided to be the companions and formed the company with absolute hopes.

[Tanisha Pratihast](#) has been working in the fashion industry for two years. She has been a part of the success stories of various brands. Born in August 2001, she dreamed of working as a women entrepreneur. Learning the value of good quality fashion products, she devoted time to exploring the international market & putting up all her time and efforts into the company.

[Kartik Bathla](#) has five years of experience in marketing strategies & business branding. He has helped brands Shine My Wheels, Taj Indian Beer, Godly Cloud, and more for building their business & marketing strategies. He devoted time to making the website & planning the growth strategies of the

company.

The Elefad team has many talented and experienced professionals in the fashion industry. The team has a wealth of knowledge and expertise in design, production, and marketing, and they are all dedicated to creating a successful and sustainable business. The team also includes experienced designers and stylists who help create the perfect look for each collection.
