

FD Capital Announces the Launch of Only Legal

London, United Kingdom May 22, 2022 ([Issuewire.com](https://www.issuewire.com)) - FD Capital, the London-based boutique financial recruitment agency, is expanding its recruitment services to include legal recruitment for the first time. This new service will be offered under the latest company within the FD Capital family – Only Legal – with a focus exclusively on senior legal recruitment.

The company will continue FD Capital's tailored 1-on-1 recruitment strategy, carrying it over to offer full-time, part-time, and interim legal professional recruitment for companies across London and the Southeast.

The launch of Only Legal will be the first time FD Capital offers its tailored recruitment outside of the financial and executive recruitment niche. The FD Capital brand has been rapidly expanding in recent weeks with the launch of EXEC Capital and Accountancy Capital.

It marks the next step in FD Capital's domestic and international growth as the agency focuses on in-house and remote recruitment through its various entities. FD Capital's individualised approach to recruitment has seen extensive growth in recent months as the company expands its London base.

Only Legal's portfolio includes legal professionals with experience working with companies going through equity fundraising or restructuring. It will continue FD Capital's focus on offering a tailored approach to recruitment by addressing the specific needs of each client and matching them with a hand-selected candidate.

The Only Legal leadership team is experienced entrepreneurs who understand the difficulties businesses face – and why a company needs a strong legal team. This unique insight has led to FD Capital's strong track record of matching companies with their ideal candidates through a streamlined process.

The launch of Only Legal marks another vote of confidence for FD Capital and its expanding recruitment services as it ventures into the world of legal recruitment for the first time. FD Capital now provides senior financing, general accounting, legal services, and executive recruitment services across the UK and beyond.

Adrian Lawrence, Director of FD Capital and Only Legal, said “we are pleased to announce the launch of our dedicated legal recruitment business – Only Legal”.

About FD Capital:

FD Capital is a recruitment agency that connects businesses with Financial Directors and CFOs. Their pool of interim, part-time, and full-time financial professionals helps businesses reach their potential and scale to the next level.

As a multi-disciplinary agency, FD Capital works with small and medium businesses across the United Kingdom. The launch of Only Legal marks the company's first steps into legal recruitment after previously specialising in executive and financial recruitment.
