

FinTech expert Richard Garnier joins Powerzeek Board

Powerzeek, the Norway-based global clean energy hub, announced today that it has appointed senior FinTech executive Richard Garnier to its Board of Directors.

Bergen, Hordaland May 26, 2022 ([Issuewire.com](https://www.issuewire.com)) - Powerzeek's digital clean energy hub combines proprietary pricing algorithms with a zero-commission marketplace on cleaner transport energy. Since launching the hub in 2020, the Powerzeek community has grown to include buyers representing fleets of more than 1500 ships and sellers with a supply capacity of several hundred million tons of fuel.

The appointment of Richard Garnier follows his active participation as a member of the company's Advisory Board over the previous 18 months. Garnier brings over 30 years of experience in information technology and financial and commodities markets having served as CEO for Thomson Reuters in the Nordic & Baltic region between 2007-2015 and in other leadership positions in a number of technology start-ups.

"Extensive experience as a founder of technology-based businesses and more recently as an investor and board advisor position Richard to bring a highly relevant perspective and insight to the business," commented Powerzeek Founder & CEO, Dag Lilletvedt.

"I am delighted to be deepening my engagement with Dag and the team at this exciting time for the business. Powerzeek operates a hub with a significant role to play in the clean energy transformation of the marine transportation sector and beyond. It's a pleasure to bring my know-how and network to such a worthwhile enterprise and support a team I really believe in."

"I have been working alongside Richard over the last 18 months and it's a pleasure to now welcome him to our Board of Directors where he will be able to benefit from his considerable experience and forward-looking perspectives for the business." Commented Wenche Teigland, Chair of Powerzeek.

Dag Lilletvedt, CEO and founder of Powerzeek, commented "We are entering transformational times in the shipping and energy sectors. Access to reliable data and insight are critical to ensuring shipping companies avail themselves of the best available fueling solutions at a fair price and are cognizant of ever-advancing environmental standards. Renewing our board keeps us fresh and all the more focused on the challenges and opportunities ahead of us."
