

Foley RIG360 Expands Truck Center Service and Support in Kansas

New Olathe location builds on radiator-to-rim service

Olathe, Kansas May 10, 2022 ([Issuewire.com](https://www.issuewire.com)) - Foley RIG360 Truck, which operates a network of on-highway truck service centers across Kansas and Western Missouri, has opened a new full-service, on-highway truck center in Olathe, Kansas, with easy access to I-35 and US-169.

“Our on-highway truck centers help support our customers with all their truck needs,” said Michael Swartz, General Truck Service Manager for Foley RIG360 Truck Centers. “Everything from general service and preventive maintenance to financing large repairs or engine rebuilds, Foley RIG360 Truck Centers are ready to help our customers find solutions,” he added.

The new Olathe location has a streamlined layout, new tools as well as additional parts capacity to allow Foley RIG360 to increase customer uptime and provide enhanced support. With the addition of Olathe, Foley RIG360 now operates 12 truck centers across Kansas and Western Missouri. Additionally, Foley RIG360 is a member of the nationwide RIG360 Truck Service Network with more than 65 locations

across 12 states in the US.

Foley RIG360 is also a partner of HDA Truck Pride and can offer competitively priced parts for all on-highway truck makes and models including: Peterbilt, Kenworth, Freightliner, International, Mack, and more.

The Olathe facility also houses Foley Equipment's new and used construction equipment sales, machine service, parts center, and rental store.

The FoleyRIG360 Truck Center is located at 19968 W. 157th Street in Olathe, with easy access from 157th and 159th Streets, just two blocks from US-169.
