

Fresh Start Mediation Launches A New Website.

Calgary, Alberta May 17, 2022 ([Issuewire.com](https://www.issuewire.com)) - Fresh Start Mediation is pleased to announce a bold new website and logo design to go along with their strategic advance in the specialties of divorce and family mediation. The new website demonstrates the expansion of Fresh Start Mediation across Canada with its full team of divorce and family mediators and can be seen at <https://freshstartmediation.ca/>

Fresh Start Mediation has at its heart the very interesting "Orange Story", which demonstrates that not every conflict has to have a win/lose outcome. The desire of Fresh Start Mediation is to help to separate couples come up with win/win solutions. <https://freshstartmediation.ca/fresh-start-process/>

Don Shapira of Fresh Start mediation has said that not enough Canadians are aware of the many benefits of divorce mediation vs a traditional court battle where both sides retain divorce lawyers. "Divorce mediations allow separating couples to have a say in the mediation process which are often both less stressful and less costly than a court-ordered divorce."

The Fresh Start Mediation Website has many tools and articles to describe its process, and how it can work in specific situations. There are tools for separation and divorce, financial assessment, and parenting plans. There is also a special calculator that can help interested parties calculate how much the mediation process will cost ahead of time.

Fresh Start Mediation is using its very successful program of both personal and corporate mediation to expand across Canada. They already have offices in Manitoba, Alberta, and B.C. and are negotiating expansions into other provinces. The new mediators coming to the board bring more skills and capabilities such as the ability to mediate in multiple languages.

Fresh Start Mediation is a family and divorce mediation company.
