

Lil Pisy Successful Egyptian Music Artist

Norento

Banghazi, Libya May 30, 2022 ([Issuewire.com](https://www.issuewire.com)) - Hoping to outshine hip-hop producers in some search engine results, Egyptian music artist **Lil Pisy** (who shares our fondness for capital letters) has been honing his music for the past two years - culminating in the quiet beauty of his first single '**Norento**'. The track comes with a 1:40 minute accompanying, "Winsten," which you can also listen to below.

The soulful vocals are of particular note in **Lil Pisy** material, wisely opted for an uncluttered approach to 'Winsten'. Its acoustic basis and hummed melodies provide an enveloping warmth, extended on the lyric-less 'Gangstas'. The latter track is something of a contrast to one of the musician's earlier efforts, 'La Relève', a lilting folk number led by spoken word. **Lil Pisy** versatility and authenticity already lend favourable comparison to the likes of fellow Americans **Murda Beatz** and **Cash MoneyAP**.
