Family medicine is a medical specialty devoted to comprehensive health care for people of all ages. The specialist is called a family physician or family doctor. A family physician is often the first person a patient sees when seeking healthcare services. They examine and treat patients with a wide range of conditions and refer those with serious ailments to a specialist or appropriate facility.

On a more personal note, Dr. Adusumalli attributes her success to her parents, who taught her the meaning of hard work and genuine compassion. When she is not tending to patients, she enjoys spending time with family and friends, traveling, trying new restaurants, and reading. Her favorite place to vacation in the Greek Islands. She is fluent in both English and Telugu.
