

PlanSplit Helps Veterinary Wellness Service Providers Gain New Clients

PlanSplit is a recurring billing management system that actively boosts conversions by leveraging intuitive features.

Lake Mary, Florida May 4, 2022 ([issuewire.com](https://www.issuewire.com)) - Plan management is a cumbersome and tedious process. All veterinary wellness service providers experience issues with plan management and thus seek integration. However, they must consider why they are seeking integration. If it is to reduce staff workload, the integration alone can't help.

The primary goal of PlanSplit is to help providers gain a new audience and grow their practice. While

with practice software integration, you can apply usage in a single invoicing step, PlanSplit allows you to do it instantly at the time of check out. The time saved by not managing all processes such as sign-ups, payments, collections, cancellations, and filing paperwork outweighs the seconds lost due to lack of integration.

Unlike other veterinary wellness plan platforms such as integrated Petly, PlanSplit helps reduce the pains associated with plan management while offering wellness plans quickly, easily, and inexpensive for providers.

Founded by a veterinary multi-practice owner, PlanSplit focuses on reducing staff workload and payroll costs associated with plan management. In addition, it allows veterinary practitioners to focus on their customers while lowering or negating recurring billing management costs.

One of the most significant benefits of using PlanSplit for veterinary service providers is that they don't need separate payment gateways and merchant accounts. No additional staff time is required for plan management either. All you must do is tell the consumers about your plans and apply usage.

The administrative tasks in terms of sign-up, payments, collections, and cancellation are made super easy and quick with PlanSplit. All these activities are automated and human-assisted in the application.

Today, veterinary service practitioners and other wellness service providers find this [recurring billing management](#) system a significant value for their customers. It actively boosts conversions and organic promotion opportunities with an easy-to-use and comprehensive interface and other intuitive features.

PlanSplit allows vet practitioners and other wellness service providers to efficiently create and sell usage-based plans, packages, and memberships which increase their patient compliance, and therefore, monthly recurring revenue (MRR). The total cost of the vet service, plans, and packages is split billed into monthly installments to clients as an incentive over the plan period. No wonder split billing helps increase patient compliance by means of convenience and affordability. It also allows auto-renewal to the same or different plans, keeping your care relationship long term. All this contributes to a healthy and sustainable MRR for your vet practice.

About the Company: PlanSplit is where service providers can create new or bring their existing wellness plans to the online marketplace. Offering plans on PlanSplit will positively impact your practice's retention. Using this system, you can control how your plans are configured and set up.
