

Tarps Now® Announces Release of Guide to the Best Uses of Vinyl Tarps

New Guide Released in Response to Information Requests by Business Users and Consumers

Benton Harbor, Michigan May 23, 2022 ([Issuewire.com](https://www.issuewire.com)) - **Tarps Now®** is pleased to announce the release of a new informational guide focused on providing the marketplace clear guidance on the best applications for the best use of [vinyl tarps](#) and related industrial-grade fabrics. The guide includes detailed information on the use of heavy-duty material utilized for the manufacturing of vinyl tarps. For example, manufacturing techniques include the use of high density, cross-woven polyethylene Terephthalate scrims coated with polyvinyl chloride (PVC) film laminate which results in vinyl tarps that are 100 percent waterproof, as well as very strong, and long-lasting.

Vinyl Tarps hold up amazingly to the harshest conditions and environments for the long haul. Most of these covers are included with strong grommets (eyelets) inserted in the hems and spaced evenly around the entire perimeter to be used to help safely tie-down the tarps. **Vinyl Tarps** are secured to structures and other things with fastening items such as zip ties, bungee balls, rope, and tarp straps.

Product variations include grading for light duty on up to super heavy-duty vinyl tarp applications, plus a wide range of material weights, thicknesses, specialty features (such as fire retardant, anti-static), and a variety of common and effective colors including the very popular **Clear Vinyl** products. **Vinyl Tarp** product applications follow below:
