THE MILLION DOLLAR METAROOM

California City, California May 9, 2022 (Issuewire.com) - We all remember The Million Dollar Homepage and recall how successful it was. Don't you think it is time for a newer and better version that gets immersed in a virtual world of graphics and ads?

Meet the new virtual version of it [The Million Dollar MetaRoom!](#)

Unlike The Million Dollar webpage, The Million Dollar MetaRoom is a room made out of a floor, a roof, and 4 walls. We call them in the Meta Room surfaces.

Each surface is 10 meters wide and 10 meters tall.

The spaces that anyone can buy to showcase a graphic or an image are 10×10 cm or units.

The Million dollar MetaRoom is an immersive version of The Million Dollar Homepage that leverages virtual reality and puts the users in the middle of a virtual room full of beautifully displayed images, graphics, and ads.

The best part is that The Million Dollar MetaRoom is VR-ready, launch it on any VR headset and get immersed in a Meta Advertising world.

See you in the Meta Room!
