

TrueBays IT Software Trading LLC launches ERP Software in UAE with Free trial

TrueBays IT Software Trading LLC launches updated version of StackFX ERP

Dubai, United Arab Emirates May 24, 2022 ([Issuewire.com](https://www.issuewire.com)) - The fast-growing software company in Dubai Truebays IT Software Trading LLC, has launched many business management software products. Recently Truebays launched a new version of their

A technology company offering a wide range of solutions for IT requirements armed with in-depth experience in like ERP, HR & Payroll, POS, and Customized IT solutions. Our flagship “StackFX” is a superior end-to-end, comprehensive, one-stop automated ERP Solution, flagship product “StackFX ERP”.

TrueBays IT Software Trading LLC is a fast-growing Dubai-based ERP and business software solutions provider specialized in providing software applications for small to large level companies.

Truebays started its business in UAE in the year 2007. Initially when they started Truebays focused on only the accounting module, after understanding the requirements of the customers. Truebays has created an all-in-one ERP software with all the business management modules. Today businesses need advanced systems to manage all their activities. Truebays provides a systematic real-time solution for managing all department functions in one complete ERP Software solution. Truebays has customized software solutions that cater to the requirements of all industries.

The updated version of StackFX ERP comes with lots of inbuilt features. It is a user-friendly, cloud-based [ERP system in UAE](#) which helps to fully automate the business process and have a better overview of the business. StackFX ERP offers modules like CRM, accounts, sales, purchases, inventory, order management, human resources management, and more in one software. StackFX ERP is suitable for different industries like trading, manufacturing, contracting, and service industries.

Truebays has a team of domain experts to do all kinds of development on the product based on customer requirements. Their R & D, support team is locally available in UAE.

With help of domain experts from software, the industry has helped Truebays to launch an updated version of StackFX ERP. Very soon, Truebays hopes to launch the mobile app of StackFX.
