

Amy M. Fox, MD, a Radiation Oncologist with Advocate Radiation Oncology

Get to know Radiation Oncologist Dr. Amy M. Fox, who serves patients in Fort Myers, Florida.

New York City, New York Jun 10, 2022 ([Issuewire.com](https://www.issuewire.com)) - With more than a decade of radiation oncology experience, Dr. Fox is affiliated with Advocate Radiation Oncology, working with patients at their offices in Fort Myers, Florida.

Advocate Radiation Oncology is proud to have world-class physicians on staff to provide top-tier

treatment to their patients across South Florida. They are committed to providing innovative treatment with a patient-centered approach. Their board-certified doctors have trained at some of the nation's most prestigious institutions. They are recognized as leaders in the oncology community and have decades of experience in radiation oncology.

Before embarking on her professional journey, Dr. Fox received her medical education at the Mount Sinai School of Medicine in New York, graduating with several honors, including the Harold Elster Memorial Prize for highest academic standing. She completed her residency at the Harvard Radiation Oncology Program in Boston, before returning to her hometown of Fort Myers.

Subsequent to her education, the doctor attained board certification in radiation oncology through the American Board of Radiology (ABR). The ABR is a not-for-profit physician-led organization that oversees the certification and ongoing professional development of specialists in diagnostic radiology, interventional radiology, radiation oncology, and medical physics.

In good standing with a number of professional organizations, she is an active member of the American College of Radiation Oncology, the American Society for Therapeutic Radiology and Oncology, the American Medical Association, and the American Society of Clinical Oncology. She has presented and published research on a variety of topics in oncology, including head and neck cancer, prostate cancer, and lymphoma.

Throughout her career, Dr. Fox has worked to raise awareness about the importance of cancer screening and to provide insight to her patients on the newest treatments and technology. She is bilingual and passionate about advocating for and educating underserved communities. She has also participated in numerous cancer presentations within the Hispanic community.

Radiation oncology is a medical specialty that involves the controlled use of radiation to treat cancer. It is one of the three primary specialties – the other two being surgical and medical oncology – involved in the treatment of cancer. A radiation oncologist is a specialist physician who uses ionizing radiation in the treatment of cancer.

In her free time, Dr. Fox enjoys reading and spending time with her husband, Brian, and their three children, Sophia, Josh, and Carina.
