

Applied AI Consulting Earned ISO 27001:2022 Certification

Applied AI Consulting (AAIC) is now ISO 27001:2022 certified. It's all because of team AAIC. And with this Data and Information Security Management System certification, we commit to the highest level of internal compliance and Security.

Pune, Maharashtra Jun 27, 2022 ([Issuewire.com](https://www.issuewire.com)) - ISO:27001 certification was acquired by Applied AI Consulting, a prominent Cloud and AI automation service. This certification was earned after a lengthy audit.

One of the most well recognised and acknowledged information security standards in the world is ISO 27001. AAIC has further established itself as one of the most secure service providers on the market by acquiring this certification. It's a result of our comprehensive security procedures and policies that have been in place since the beginning.

"ISO 27001 certification provides further assurance to our customers who have entrusted us with their data. This certification verifies our world-class procedures, protocols, and controls," stated Vijay Roy, CEO – AAIC. "We are well-positioned to mitigate the ever-increasing information security threats and strengthen our compliance portfolio with our well-established Information Security Management System," he continued.

"It wasn't easy, but we achieved this because of the wonderful team we have," he said in closing.

When it comes to embracing cloud-based services, such as AI automation, we understand that security breaches are a growing worry for clients. The AAIC's security compliance roadmap includes multiple milestones, including ISO certification. We want to take comparable actions to boost our customers' and partners' trust in our ability to meet industry-best security requirements.
