Kiki Li | Co-Founder | axiusSoftware

Digital Consulting Company with a Global presence is thrilled to achieve 9001:2015 ISO certification, a reflection of our continued commitment to meet the quality expectations and requirements of our clients through an effective quality management system

ISO 9001:2015 is an internationally recognized set of requirements for a Quality Management System (QMS) focusing on improving the quality of the products and services of the organization with an aim to enhance customer satisfaction, including processes for improvement of the overall system

[Kiki Li](#), Co-Founder of axiusSoftware says “Quality blends smoothly within our organization. With our focus on Committed Delivery, Consistent Quality & Continual Process Improvement, we have been able to gain Trust & Long-Term Relationship with our clients with improvements in our repeat business. As we continue our growth journey, this certification will certainly help to give added confidence to our clients on our quality delivery”

The journey towards achieving this certification has required a lot of dedication and time for axiusSoftware. Our Quality process documents and manuals serve as a guideline and standards for our employees. We aim to strictly adhere to those, as well as, continue to commit towards a quality software delivery and services for our clients. Please feel free to contact us at sales@axiussoftware.com
