

BarkingTalk Launches As a Fun Resource for Millions of Dog Owners Across America

New York City, New York Jun 3, 2022 ([Issuewire.com](https://www.issuewire.com)) - [BarkingTalk](#) is a new website that helps pup parents across America find out all the information they need about their beloved canines. Want to know the best [products](#) for your pup? We try and test out the best gadgets, toys, and more and give honest reviews about each. Not sure what you should be feeding your doggo? We compare different subscription boxes and food brands and tell you what common [foods](#) are safe and unsafe to feed your adorable furry friend.

At BarkingTalk we also love learning (and sharing) as much as we can about different [breeds](#) and the weird and wonderful things our doggies do. So, if you want to know the temperament of a Pitsky, the different types of Chihuahuas, or why dogs eat cat poop – you can find it all out on [BarkingTalk!](#)

“All of us at BarkingTalk have always had dogs at home. We know how important it is that they’re

healthy, happy, and having fun – which is how the site really started”, said Roberto, CEO of Lemon Media OÜ. “We’d always been looking online for valuable information regarding our own pups and couldn’t necessarily find the answers we were looking for. Over time, we wanted to share our experience, knowledge, and research with others so that we could become a fun and useful resource for doggos and their owners across America”.
