A new software version has been released by Leawo, which should fix anomalous processing bar issue. Plus, two new downloading modules are added for fuller capacity for downloading.

Shenzhen, Guangdong Jun 17, 2022 (Issuewire.com) - Shenzhen, Guangdong, June 20th - CleverGet, the world's leading online source downloading solution provider trusted by millions of worldwide customers, rolled out [CleverGet 5.0.0.0 version](#). After issues are reported, the CleverGet team figured out workarounds in 8 days and fixed them as soon as possible. This version update, which came out on June 8th, was packed with a new module for downloading Crackle and FOD videos. What's more, the update also solves the long-drawn problem of processing bar issue and it really enhances users' experience. More details about CleverGet Version 5.0.0.0 are as follow:

What's Improved in CleverGet Version 5.0.0.0

A range of new features are added CleverGet 5.0.0.0, and now have a look at what surprises CleverGet will bring in the latest version.

- **Added Crackle Downloader module.** Since Crackle is free and doesn't offer any premium subscriptions for watching ad-free content, there is no native option for watching these shows offline. This time, Leawo Crackle Downloader can certainly help.
- **Added FOD Downloader module.** As one of the biggest video distribution platforms, FOD becomes the mainstream of people's entertainment. This FOD video downloader allows you to download high-quality videos so that you can get rid of the problem of a bad internet connection.
- **Fixed anomalous downloading progress bar display** of partial video downloading. Some people reported that they were confronted with an unusual situation when they tried to download

part of the videos. The processing bar turned into gibberish anomalously, and this update was launched to fix it.

- Optimized program workflow and fixed known bugs.
